BENBELLA BOOKS, United States, 2013. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book. The author of the bestselling What Makes Your Brain Happy and Why You Should Do the Opposite delivers 30 science-based actions to enrich your life. Science writer and bestselling author David DiSalvo returns with Brain Changer: How Harnessing Your Brain s Power to Adapt Can Change Your Life. Drawing on the latest research in cognitive psychology, neuroscience, behavioral economics, and communications, DiSalvo replaces self-help with science-help, giving readers practical steps to change their thinking and their lives. Known for his accessibility and applicable findings, DiSalvo explains that the human mind operates via a series of feedback loops generated in the brain. By identifying how these systems work, DiSalvo shows we can actually redirect our thinking through metacognition, a tool for thinking about thinking, to influence the brain s response. Using relatable examples and tackling major aspects of our lives including relationships, careers, physical health, and personal development, DiSalvo demonstrates how the brain s enormous capacity to adapt is the most crucial factor influencing how we feel and act--a powerful tool we can control to change our lives.
