

The Enjoyment of Math: Selections from Mathematics for the Amateur

By Hans Rademacher, Otto Toeplitz

Princeton University Press, United States, 1966. Paperback. Book Condition: New. Reprint. 201 x 124 mm. Language: English .

Brand New Book. What is so special about the number 30? How many colors are needed to color a map? Do the prime numbers go on forever? Are there more whole numbers than even numbers? These and other mathematical puzzles are explored in this delightful book by two eminent mathematicians.

Requiring no more background than plane geometry and elementary algebra, this book leads the reader into some of the most fundamental ideas of mathematics, the ideas that make the subject exciting and interesting. Explaining clearly how each problem has arisen and, in some cases, resolved, Hans Rademacher and Otto Toeplitz's deep curiosity for the subject and their outstanding pedagogical talents shine through.
